Customize color

ClimSel Go is made of a durable- and water repellent fabric that is easy to clean. The bag can be made in a limited range of different colors to suit the customers brand. Select between the classic original black or "pop" with color. The straps is always equipped with reflexes to ensure high safety on the Go.

Attachable Logo patch

The two velcro patches gives the customer the full option to adapt the logo and look in an instant. The ClimSel Go can match every purpose and situation and make your brand stand out.

Say hello to ClimSel Go!

It's the answer to all just in time deliveries of temperature sensitive products. The System is a temperature controlled courier solution. A modern, cost effective and safe option to ensure that temperature sensitive products are delivered with the correct temperature. The system is validated for up to 30 openings to ensure stable temperature for every stop on the way.

Use ClimSel™ PCM

Our non-hazardous salt hydrate ClimSel™ PCM:s provides a tempered microclimate inside the system and it's a far more environmentally friendly alternative compared with conventional chilled transports. A solution with ClimSel ensures a temperature stable transport that follows the **GPD** guidelines. It lasts all the way from sender to user. It's an excellent medium for protecting sensitive and valuable products from temperature fluctuations during transport

"ECO and GDP compliant solution"

The ClimSel Go System is equipped with a brand new functional carrier bag for easy and comfortable transportation. The RTP-Shields (returnable transport) are made out of durable plastic to withstand reuse. The ClimSel Go System comes with a smart divider inside that helps to secure and keep the products in place throughout the route.

Go for comfort

The ClimSel Go bag is developed with courier use and comfort in mind. The multiple usage makes it optimal for all deliveries regardless of transportation options. The padded lid and functional straps gives the option to wear it comfortable as a backpack. All compartments are equipped with zippers to obtain maximum durability and protection.

Get Organized

The Smart divider is a functional accessory to keep the products organized for faster handovers. Alter the space and go from 2 to 8 compartments simply by removing or relocate the dividers. The side compartment provides easy accessibility of necessary gadgets and accessories. Work smarter and faster with ClimSel Go.

Performance

Below curves shows how the ClimSel Go System performs with both 1 and 2-step conditioning. Executed with 31 openings in total over a 30 hours time period.

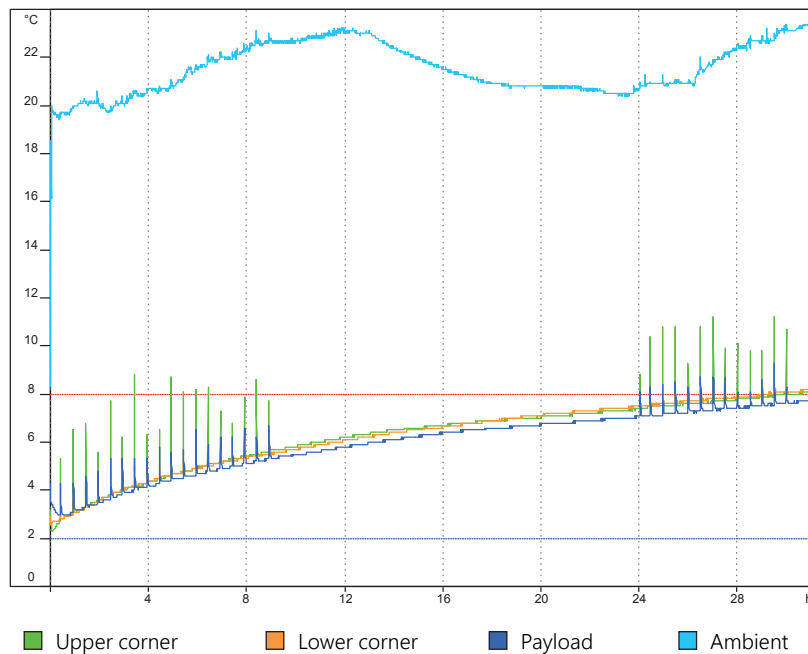

2-step conditioning

1. Freeze at -18°C for at least 24 hours or to properly frozen.
2. Store in a cooling room at 2-3°C for at least 24 hours to achieve the correct starting temperature.

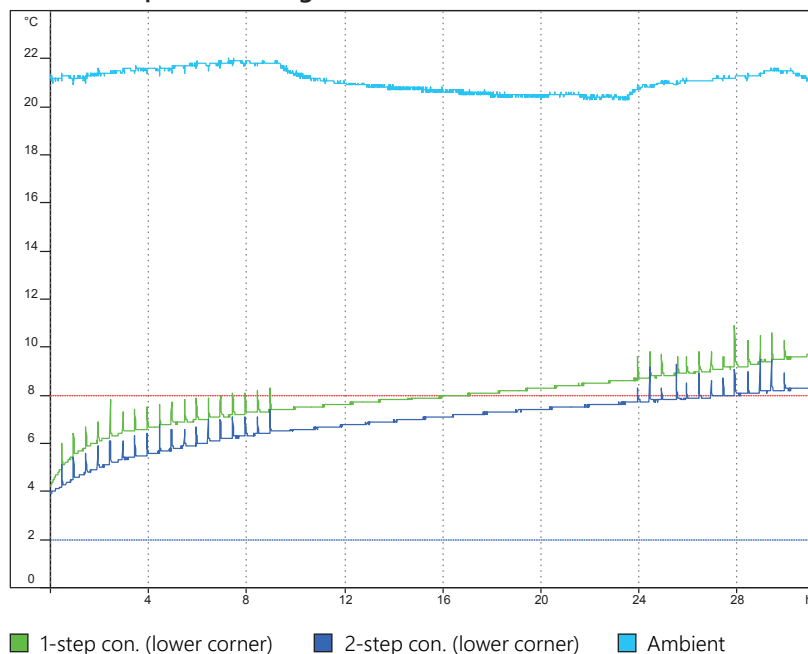

1-step conditioning

1. Store in a cooling room at 2-3°C for at least 48 hours to achieve the correct starting temperature.

2-step conditioning - Start +2°C

2- and 1-step conditioning- Start +3°

ClimSel Go

Working temperature: +2°C till +8°C

Duration: 8 to 30 hours

Payload volume: ~ 7,6 litres

Weight: 8 kg

Outer dimensions:

430 x 290 x 290 mm

Inner dimensions:

Max - 316 x 174 x 146 mm

Min - 296 x 154 x 146 mm

Components

- ClimSel Go Bag
- Smart Divider
- Insulating EPS Box
- 6 pcs ClimSel Shields
